POWER OF ATTORNEY / DEPUTY

With many savings accounts offering pitifully low interest rates, those with Power of Attorney or acting as a Deputy face a new set of challenges when trying to get the most from the savings you manage.

As an Attorney or Deputy, you not only have an obligation to make sure that the deposits you are responsible for are in secure institutions, but you also need to regularly monitor those institutions and their rates, to ensure the cash you are managing is earning a competitive rate and being actively managed.

The problem is that many institutions won't accept deposits held by

Attorneys or Deputies, offer pitifully low interest rates, or offer a high bonus rate which disappears after six months or a year. We all have good intentions of moving the cash when this happens, but these jobs become low priority in our busy lives, even when there is potential for extra revenue to be made.

With such a wide choice of different cash investment options available in the UK, it is time-consuming to

continuously look for the best savings rates. With rates sometimes changing over the course of a few months, it can be also difficult to find and keep your money in competitive accounts that provide the security you need without dealing with all of the cumbersome paperwork that comes with opening and closing accounts.

What is the service?

The Dynamic Cash Management service is designed to ensure that:

Client cash earns consistently competitive interest

Client cash is constantly monitored for security

You save time, effort and worry

We do this by researching and selecting the most suitable accounts for your loved one or family member's cash from the whole of the savings market. We choose competitive accounts for you from reputable institutions. We move the cash when rates change and new opportunities arise. We arrange the paperwork and we keep you informed.

Case study

One of our clients had recently been granted Power of Attorney over her mother's affairs, with her mother now living in a care home.

The client understood she had a duty of care to ensure that her mother's savings were secure and earning a competitive rate of interest. Having tried to manage the funds herself she found sourcing and managing accounts very time consuming and frustrating so she turned to Dynamic Cash Management.

With a standing order set up from her mother's DCM account, she leaves the payment of the care home fees and the administration of the accounts in the hands of her experienced Client Manager and now has peace of mind that her mother's savings are safe and secure and earning a competitive rate of interest.
